SIGMALINE 2000

Description

- two component solvent free amine cured phenolic epoxy coating
- one coat system direct to metal for pipe externals
- suitable for e.g. bell holing jobs
- resistant to well designed cathodic protection
- glossy and smooth appearance
- can be applied by heavy duty twin feed hot airless spray equipment
- can be applied at a substrate temperature of 90°C
- reduced explosion risk and fire hazard
- approved to Saudi Aramco APCS 113A

COLOURS AND GLOSS

- redbrown – gloss

BASIC DATA AT 20°C

(1 g/cm³ = 8.35 lb/US gal; 1 m²/l = 40.7 ft²/US gal)
(data for mixed product)

- Mass density 1.4 g/cm³
- Volume solids 100%
- VOC (Supplied) max. 108 g/kg (Directive 1999/13/EC, SED)
  max. 146 g/l (approx. 1.2 lb/gal)
  see information sheet 1411

- Recommended dry film thickness 600 - 1500 μm depending on system
- Theoretical spreading rate 1.7 m²/l for 600 μm *
- Touch dry after 6 hours
- Overcoating interval min. 24 hours *
  max. 2 months *
- Full cure after 5 days *

(data for components)

- Shelf life (cool and dry place) at least 12 months
  * see additional data

RECOMMENDED SUBSTRATE CONDITIONS AND TEMPERATURES

- steel; blast cleaned to a minimum of ISO-Sa2½, blasting profile 50 - 100 μm
- substrate temperature should be above 5°C and at least 3°C above dew point during application and curing

INSTRUCTIONS FOR USE

- mixing ratio by volume: base to hardener 80 : 20
  - when mixing the temperature of the base and hardener should be at least 20°C
  - at lower temperature the viscosity will be too high for spray application
  - no thinner should be added

- Induction time none
- Pot life 1 hour at 20 °C *
  *see additional data
SIGMALINE 2000

June 2013

AIRLESS SPRAY

Recommended thinner: no thinner should be added
Nozzle orifice: approx. 0.53 mm (= 0.021 in)
Nozzle pressure:
- at 20°C (paint temperature) min. 28 MPa (= approx. 280 bar; 4061 p.s.i.)
- at 30°C (paint temperature) min. 22 MPa (+ approx. 220 bar; 3000 p.s.i.)
- heavy duty single feed airless spray equipment preferably 60:1 pump ratio and suitable high pressure hoses
- in-line heating or insulated hoses may necessary to avoid cooling down of paint in hoses at low air temperature
- length of hoses should be as short as possible

BRUSH/ROLLER

Recommended thinner: no thinner should be added

CLEANING SOLVENT

Thinner 90-83 (preferred) or Thinner 90-53
- all application equipment must be cleaned immediately after use
- paint inside the spraying equipment must be removed before the pot life time has been expired

ADDITIONAL DATA

Film thickness and spreading rate

<table>
<thead>
<tr>
<th>theoretical spreading rate m²/l</th>
<th>1.7</th>
<th>1.0</th>
<th>0.7</th>
</tr>
</thead>
<tbody>
<tr>
<td>dft in μm</td>
<td>600</td>
<td>1000</td>
<td>1500</td>
</tr>
</tbody>
</table>

Maximum dft when brushing: 150 μm

measuring wet film thickness
- a deviation is often obtained between the measured apparent wft and the real applied wft
- this is due to the thixotropy and the surface tension of the paint which retards the release of air trapped in the paint film for some time
- recommendation is to apply a wft which is equal to the specified dft plus 60 μm

measuring dry film thickness
- because of low initial hardness the dft cannot be measured within some days due to the penetration of the measuring device into the soft paint film
- the dft should be measured using a calibration foil of known thickness placed in between the coating and the measuring device
SIGMALINE 2000

Overcoating table for SigmaLine 2000 for dft up to 600 μm
(for spot repair and stripe coating only)

<table>
<thead>
<tr>
<th>Substrate Temperature</th>
<th>5°C</th>
<th>10°C</th>
<th>20°C</th>
<th>30°C</th>
</tr>
</thead>
<tbody>
<tr>
<td>Minimum Interval</td>
<td>80 hours</td>
<td>36 hours</td>
<td>24 hours</td>
<td>12 hours</td>
</tr>
<tr>
<td>Maximum Interval</td>
<td>3 months</td>
<td>3 months</td>
<td>2 months</td>
<td>1 month</td>
</tr>
</tbody>
</table>

- Surface should be dry and free from any contamination

Curing table for dft up to 600 μm

<table>
<thead>
<tr>
<th>Substrate Temperature</th>
<th>Dry to Handle</th>
<th>Full Cure</th>
</tr>
</thead>
<tbody>
<tr>
<td>5°C</td>
<td>60 hours</td>
<td>15 days</td>
</tr>
<tr>
<td>10°C</td>
<td>30 hours</td>
<td>7 days</td>
</tr>
<tr>
<td>20°C</td>
<td>16 hours</td>
<td>5 days</td>
</tr>
<tr>
<td>30°C</td>
<td>10 hours</td>
<td>3 days</td>
</tr>
</tbody>
</table>

- Although the paint is solvent free adequate ventilation must be maintained during application and curing (please refer to sheet 1433 and 1434)

Pot life (at application viscosity)

<table>
<thead>
<tr>
<th>Temperature</th>
<th>Pot Life</th>
</tr>
</thead>
<tbody>
<tr>
<td>20°C</td>
<td>60 min.</td>
</tr>
<tr>
<td>30°C</td>
<td>45 min.</td>
</tr>
<tr>
<td>40°C</td>
<td>20 min.  *</td>
</tr>
</tbody>
</table>

- Due to exothermic reaction, temperature during and after mixing may increase

* It is recommended to use plural airless equipment due to the short pot life

Worldwide availability

It is always the aim of PPG Protective and Marine Coatings to supply the same product on a worldwide basis. However, slight modification of the product is sometimes necessary to comply with local or national rules/circumstances. Under these circumstances an alternative product data sheet is used.

SAFETY PRECAUTIONS

- for paint and recommended thinners see safety sheets 1430, 1431 and relevant material safety data sheets
- although this is a solvent free paint, care should be taken to avoid inhalation of spray mist as well as contact between the wet paint and exposed skin or eyes
- ventilation should be provided in confined spaces to maintain good visibility

WARRANTY
PPG warrants (i) its title to the product, (ii) that the quality of the product conforms to PPG’s specifications for such product in effect at the time of manufacture and (iii) that the product shall be delivered free of the rightful claim of any third person for infringement of any U.S. patent covering the product. THESE ARE THE ONLY WARRANTIES THAT PPG MAKES AND ALL OTHER EXPRESS OR IMPLIED WARRANTIES, UNDER STATUTE OR ARISING OTHERWISE IN LAW, FROM A COURSE OF DEALING OR USAGE OF TRADE, INCLUDING WITHOUT LIMITATION, ANY OTHER WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE OR USE, ARE DISCLAIMED BY PPG. Any claim under this warranty must be made by Buyer to PPG in writing within five (5) days of Buyer’s discovery of the claimed defect, but in no event later than the expiration of the applicable shelf life of the product, or one year from the date of the delivery of the product to the Buyer, whichever is earlier. Buyer’s failure to notify PPG of such non-conformance as required herein shall bar Buyer from recovery under this warranty.

LIMITATIONS OF LIABILITY
IN NO EVENT WILL PPG BE LIABLE UNDER ANY THEORY OF RECOVERY (WHETHER BASED ON NEGLIGENCE OF ANY KIND, STRICT LIABILITY OR TORT) FOR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES IN ANY WAY RELATED TO, ARISING FROM, OR RESULTING FROM ANY USE MADE OF THE PRODUCT. The information in this sheet is intended for guidance only and is based upon laboratory tests that PPG believes to be reliable. PPG may modify the information contained herein at any time as a result of practical experience and continuous product development. All recommendations or suggestions relating to the use of the PPG product, whether in technical documentation, or in response to a specific inquiry, or otherwise, are based on data, which to the best of PPG’s knowledge, is reliable. The product and related information is designed for users having the requisite knowledge and industrial skills in the industry and it is the end-user’s responsibility to determine the suitability of the product for its own particular use and it shall be deemed that Buyer has done so, as its sole discretion and risk. PPG has no control over either the quality or condition of the substrate, or the many factors affecting the use and application of the product. Therefore, PPG does not accept any liability arising from any loss, injury or damage resulting from such use or the contents of this information (unless there are written agreements stating otherwise). Variations in the application environment, changes in procedures of use, or extrapolation of data may cause unsatisfactory results. This sheet supersedes all previous versions and it is the Buyer’s responsibility to ensure that this information is current prior to using the product. Current sheets for all PPG Protective & Marine Coatings Products are maintained at www/ppgpmc.com. The English text of this sheet shall prevail over any translation thereof.
